**Summary Report for Individual Task
150-718-5111
Participate in the Military Decision Making Process
Status: Approved**

Condition: The command has received an operations plan, warning, operations, or fragmentary order from higher headquarters and is exercising mission command. The commander has issued planning guidance. Communications are established with subordinate and adjacent units, and higher headquarters. The mission command system is operational and passing information in accordance with standard operating procedures. This task can be performed in hours of daylight or limited visibility in various environment conditions. The unit has received guidance on the rules of engagement. Some iterations of this task should be performed in MOPP.

Standard: The staff officer uses the military decision making process that integrated the activities of the commander, other staff sections and subordinate commanders to develop a operational plan or order. The staff officer's contribution establishes methods for understanding the situation and analysis of the mission; developing analyzing and comparing courses of action; selecting the most favorable course of action and producing an operation plan or order.

Note: Task steps and performance measures may not apply to every unit or echelon. Commanders can alter the steps of the military decision making process to fit time-constrained circumstances and procedures. Prior to evaluation, coordination should be made between evaluator and the evaluated units' higher headquarters to determine the task steps and performance measures that may be omitted.

Special Condition: None

Cue: None

DANGER

Leaders have an inherent responsibility to conduct Composite Risk Management to ensure the safety of all Soldiers and promote mission accomplishment.

WARNING

Composite Risk Management is the Army's primary decision-making process to identify hazards, reduce risk, and prevent both accidental and tactical loss. All soldiers have the responsibility to learn and understand the risks associated with this task.

CAUTION

Identifying hazards and controlling risks across the full spectrum of Army functions, operations, and activities is the responsibility of all Soldiers.

Remarks:

Notes: Note 1: Task content last updated: 15 Feb 2013.

Note 2: The term "staff officer" refers to any individual member of a staff section (Officer, Warrant Officer, or Noncommissioned Officer) that is responsible for conducting the task action or generating the product required by the task in the absence of the principal staff officer.

Performance Steps

1. The staff officer is alerted by the operations section to begin the planning process/military decision making process (MDMP), (Step 1 of MDMP):

    a. Alert the section of the pending planning requirements.

    b. Gather the necessary tools:

        (1) Higher headquarter order or plan and operational graphics.

        (2) Maps of the area of operation (AO).

        (3) Unit and higher headquarters tactical standing operating procedures (TACSOP).

        (4) Appropriate doctrinal references and regulations.

        (5) Current running estimates.

        (6) Other items dictated by necessity or TACSOP.

    c. Update running estimates with a focus on:

        (1) Status of friendly units.

        (2) Resources.

    d. Perform an initial assessment:

        (1) Time available from mission receipt to mission execution.

        (2) Time needed to plan and prepare for mission, for higher headquarters and subordinate units.

        (3) Recent intelligence preparation of the battlefield (IPB).

        (4) Recent running estimates.

        (5) Time required to position critical assets, to include mission command (MC) nodes.

        (6) The section's experience, cohesiveness and level of rest or stress.

    e. Based on the initial assessment, the staff officer led by the plans section prepares the initial operational timeline, which includes the staff planning timeline for:

        (1) Available time for planning.

        (2) Preparing the operation.

        (3) Executing the operation.

    f. Record the commander's initial guidance:

        (1) Initial operational timeline.

(2) How to abbreviate the MDMP, if required.

(3) Initial coordination to perform, including Liaison Officer requirements.

(4) Authorized movements, including positioning of MC nodes.

(5) Additional staff tasks, including specific information requirements.

(6) Collaborative planning times and locations.

(7) Initial information requirements (IR)

(8) Commander's critical information requirements (CCIR).

(9) Initial reconnaissance.

g. Provide input for:

(1) Type of operation.

(2) General location of operation.

(3) Initial operational timeline.

(4) Movements to initiate.

(5) Collaborative planning sessions directed by the commander.

(6) Initial IR and CCIR.

(7) Information collection tasks.

2. The staff officer conducts mission analysis: (Step 2 of MDMP)

a. Analyze the higher HQs order to better understand the:

(1) Commander's intent.

(2) Mission, including task.

(3) Available assets.

(4) Higher HQs AO.

(5) Concept of operations.

(6) Operational timeline.

(7) Missions of adjacent, supporting and supported units.

(8) Area of operation.

(9) Unit's mission in the context of and in relation to the higher headquarters mission and commander's intent (two levels up).

(10) Constraints.

(11) Risk.

b. The staff officer assists the Intelligence Section in developing IPB products:

(1) Define the battlefield environment.

(2) Describe the battlefield effects.

(3) Evaluate the threat.

(a) Improvised explosive devices.

(b) Snipers.

(c) Conventional.

(d) Nonconventional.

(4) Determine threat courses of action (COA).

c. Identify specified, implied, and essential tasks.

d. Review available assets.

(1) Identify additional resources needed.

(2) Determine additions and deletions from the current task organizations.

(3) Determine support relationships.

(4) Current status of all units.

e. Identify higher HQ mission constraints.

f. Identify critical facts and assumptions.

g. Perform a risk assessment (Tactical and Accidental):

(1) Identification of hazards.

(2) Assessment of hazards.

(3) Development of controls and decisions on risks.

(4) Implementation plan of controls.

(5) Supervision and evaluation plan.

h. Determine initial CCIR.

i. Determine the initial Information Collection plan:

(1) The AO for surveillance and reconnaissance assets.

(2) Information Collection tasks.

(3) Provisions for communications, logistics, and fire support.

(4) Task organization.

(5) The reconnaissance objective.

(6) CCIR and IR.

(7) Line of departure (LD) or line of contact (LC) time.

(8) Initial named areas of interest (NAI).

(9) Routes to the AO and passage of lines instructions.

(10) Fire support coordination measures (FSCM) and airspace control measures.

(11) Provisions for medical evacuation.

j. Update the operational timeline and the staff planning timeline.

k. Write the proposed restated mission, which contains the following five elements (who, what, when, where, why):

(1) Who will execute the operation (unit/organization).

(2) What is the unit/organization's essential task (tactical mission task).

(3) When the operation will begin (by time or event) or the duration of the operation.

(4) Where the operation will occur (AO, objective, grid coordinate).

(5) Why the unit will conduct the operation (purpose).

l. The staff officer assists in preparing and delivering the mission analysis brief to the commander consisting of:

(1) Mission and commander's intent of headquarters two levels up.

(2) Mission, commander's intent, concept of operation, and military deception plan or deception objectives of the headquarters one level up.

(3) Review of the commander's initial guidance.

(4) Initial IPB products, including modified combined obstacle overlay.

(5) Pertinent facts and assumptions.

(6) Specified, implied, and essential tasks.

(7) Constraints.

(8) Forces available.

(9) Initial risk assessment.

(10) Recommended initial CCIR, which include the friendly force information requirements (FFIR) and priority information requirements (PIR), and optionally essential elements of friendly information (EEFI).

(11) Recommended timelines.

(12) Recommended collaborative planning sessions.

(13) Recommended restated mission.

m. Gaining the commander's approval of the restated mission.

n. Receive the initial commander's intent:

(1) Expanded purpose.

(2) Key tasks.

(3) End state.

o. Receive the commander's additional planning guidance addressing:

(1) Decisive operation.

(2) Identification of a decisive point or points.

(3) Potential key decisions.

(4) Specific COA to consider or not, both friendly and threat, and the priority for addressing them.

(5) Initial CCIR.

(6) Surveillance and reconnaissance guidance.

(7) Risk mitigation measures.

(8) Military deception.

(9) Fires.

(10) Mobility and counter-mobility.

(11) Security measures to be implemented.

(12) Priorities for the warfighting functions.

(13) Information and influence activities.

(14) Cyber electromagnetic activities.

(15) The operational timeline.

(16) The type of order to issue.

(17) Collaborative planning sessions to be conducted.

(18) Movements to initiate (including MC nodes).

(19) The type of rehearsal to conduct.

p. The staff officer assists in preparing the warning order which at a minimum, contains:

(1) The approved unit mission statement.

(2) The commander's intent.

(3) Task organization changes.

(4) Attachments and detachments.

(5) The CCIR and EEFI.

(6) Risk guidance.

(7) Surveillance and reconnaissance instructions.

(8) Initial movement instructions.

(9) Security measures.

(10) Military deception guidance.

(11) Mobility and counter-mobility guidance.

(12) Specific priorities.

(13) The updated operational timeline.

(14) Guidance on collaborative events and rehearsals.

q. Review facts and assumptions to assess the impact of changes on the plan and making adjustments as needed.

3. The staff officer assists in developing COA (Step 3 of MDMP):

a. Verify each proposed COA meets the following criteria:

(1) Feasible. A COA must enable the unit to accomplish the mission within the available time, space, and resources.

(2) Acceptable. The advantage gained by executing a COA must justify the cost in resources, especially casualties.

(3) Suitable. A COA must accomplish the mission and comply with commander's guidance.

(4) Distinguishable. Each COA must differ significantly from one another.

(5) Complete. A COA must show how: decisive operation accomplishes mission; shaping operations create and preserve conditions for success of decisive operations; sustaining operations enable shaping and decisive operations.

b. Analyze relative combat/operational power to determine feasibility of proposed COA:

(1) Computing force ratios to determine:

(a) Friendly capabilities.

(b) Type of operation possible from friendly and threat perspective.

(c) How and where the threat will be vulnerable.

(d) What additional resources will be required.

(e) How to allocate existing resources.

(2) Analyze intangible aspects of combat/operational power:

(a) Environmental factors.

(b) Human factors.

(c) Friction.

(d) Threat will.

(e) Threat intentions.

(3) Comparing friendly strengths against threat weaknesses and vice verse, for the elements of combat/operational power:

(a) Movement and maneuver.

(b) Intelligence.

(c) Fires.

(d) Sustainment.

(e) Command and control.

(f) Protection.

(g) Leadership.

(h) Information.

(4) Compare force ratio with historic minimum planning ratios and estimating the extent which intangible factors affect relative combat/operational power.

c. The staff officer assists in generating options for proposed COA:

(1) Determine doctrinal requirements for each type of operation being considered.

(2) Consider possibilities created by attachments.

(3) Confirm the decisive operation issued in commander's planning guidance is nested within higher headquarters concept of operations.

(4) Determine the decisive operation's purpose (if not stated by the commander).

(5) Determine the best way to mass the effects of overwhelming power to achieve the purpose.

(6) Consider shaping operations.

(7) Establish a purpose for each shaping operation that is tied to creating or preserving a condition for the decisive operation.

(8) Determine sustaining operations necessary to create and maintain the combat power required for the decisive operation and shaping operations.

(9) Develop the operational organization for each COA.

(10) Determine the essential tasks for the decisive operation and each shaping and sustaining operation.

(11) Examine each COA to determine if it satisfies the COA screening criteria.

(12) Change or eliminate COA as appropriate.

d. Array initial forces for each proposed COA:

(1) Consider:

(a) The higher commander's intent and concept of operation.

(b) The unit mission statement and commander's intent and planning guidance.

(c) The air and ground avenues of approach.

(d) As many possible threat COA as time permits, starting with the most likely and including the most dangerous or most difficult in noncombat operations.

(2) Determine relative power required to accomplish each task, starting with the decisive operation and continuing through all shaping operations.

(3) Determine the combination of tangible and intangible assets required to accomplish each task.

(4) Determine a proposed forward edge of the battle area (FEBA) (in the defense) or a line of departure (in the offense).

(5) Consider military deception operations.

(6) Make an initial array of friendly forces, starting with the decisive operation and continuing with all shaping and sustaining operations, arraying ground forces two levels down.

(7) Identify the total number of units needed and possible methods of dealing with the threat.

(8) Determine whether to request additional resources, accept risk, or execute tasks required for COA sequentially (phased) rather than simultaneously, if a force shortfall is identified.

   e. Determine whether to request additional resources, accept risk, or execute tasks required for COA sequentially (phased) rather than simultaneously, if a force shortfall is identified.

(1) The purpose of the operation.

(2) Identify where the commander will accept tactical risk.

(3) Identification of critical friendly events and transitions between phases (if operation is phased).

(4) Designation of the decisive operation, with its task and purpose, linked to how it supports the higher HQ concept.

(5) Designation of shaping operations, with their tasks and purposes, linked to how they support the decisive operation.

(6) Designation of sustaining operations, along with their tasks and purposes, linked to how they support the decisive and shaping operations.

(7) Designation of reserve, including its location and composition.

(8) Information collection operations.

(9) Security operations.

(10) Identification of maneuver options that may develop during an operation.

(11) Location of engagement areas (EA), or attack objectives and counterattack objectives.

(12) Assignment of subordinate AO and identify unit unassigned operational environment.

(13) Concept of fires.

(14) Military deception.

(15) Inform and influence activities.

(16) Cyber electromagnetic activities.

(17) Stability operations concept of support.

(18) Prescribed formations or dispositions, when necessary.

(19) Priorities for each warfighting function.

(20) Integration of obstacle effects with maneuver and fires.

(21) Considerations of the effects of threat chemical, biological, radiological, nuclear and high-explosive (CBRNE) weapons on the force.

(22) Graphic control measures.

f. Assign headquarters to create a task organization, as necessary.

g. Prepare COA statements and sketches:

(1) Develop the COA statement:

(a) Describes how the unit will accomplish the mission.

(b) Explains the concept of operations, to include main and supporting efforts and decisive, shaping and sustaining operations.

(c) Is written in terms of the battlefield organization.

(d) Includes mission and end state.

(2) Develop the COA sketch:

(a) Unit and subordinate boundaries.

(b) Subordinate locations or movement formations (but not subordinate unit formations).

(c) The FEBA, LD, or LC, and phase lines if used.

(d) Reconnaissance and security graphics.

(e) Ground and air axes of advance.

(f) Assembly areas (AA), battle positions, strong points, engagement areas and objectives.

(g) Obstacle control measures and tactical mission graphics.

(h) Fire support coordination measures.

(i) Designation of the decisive operation and shaping operations.

(j) Location of command posts (CP) and critical information system nodes.

(k) Threat known or templated locations.

h. The staff officer assists in providing the COA brief to the commander to include:

(1) An IPB update.

(2) Possible threat COA (event templates).

(3) The unit mission statement.

(4) The commander's and higher commanders' intent.

(5) COA statements and sketches.

(6) The rationale for each COA:

(a) Considerations that might affect threat COA.

(b) Critical events for each COA.

(c) Deductions resulting from the relative combat/operational power/troop to task analysis.

(d) The reason units are arrayed as shown on the sketch.

(e) The reasoning behind the use of selected control measures.

(f) Updated facts and assumptions.

(7) Recommended evaluation criteria.

i. Upon completion of the COA briefing record the commander's additional guidance:

(1) Acceptance of COA.

(2) Rejection of COA.

(3) Creation of new COA.

(4) Directions on which COA to analyze.

4. The staff officer conducts COA analysis (wargaming) to identify the best COA, (Step 4 of MDMP):

a. Gather the required tools:

(1) Current running estimates.

(2) Event templates.

(3) Identify recording method.

(4) Completed COA, including maneuver, reconnaissance and surveillance, and security graphics.

(5) A means to post or display threat and friendly unit symbols.

(6) A map of the AO.

b. List the friendly forces.

c. List assumptions.

d. List known critical events and decision points:

(1) Events that trigger actions or decisions.

(2) Complicated actions requiring detailed study.

(3) Essential tasks.

e. Determine evaluation criteria.

f. Select the wargaming method from one of the following methods or by developing a different technique:

(1) Belt method. Dividing AO into belts (areas) running the width of AO.

(2) Avenue-in-depth method. Focusing on one avenue of approach at a time, beginning with the decisive operation.

(3) Box Method. Detailed analysis of critical areas (I.e. Landing Zones).

g. Select a method to record and display results, from one of two methods:

(1) Synchronization matrix.

(2) Sketch note technique.

h. The staff officer participates in the COA and assesses the results:

(1) Execute action/reaction/counteraction analysis through each selected event of the COA.

(2) Consider all possible forces, including templated threat outside the AO that can influence the operation.

(3) Evaluate each friendly move to determine assets and actions required to defeat the threat at that point.

(4) Consider branches to the plan that promote success against likely threat counteractions.

(5) List assets used in appropriate columns of worksheets and lists totals.

(6) Examine the following areas in detail:

    (a) All threat capabilities.

    (b) Movement considerations.

    (c) Closure rates.

    (d) Lengths of columns.

    (e) Formation depths.

    (f) Ranges and capabilities of weapons systems.

    (g) Desired effects of fires.

(7) Assess risk to friendly forces and ways to reduce vulnerability.

(8) Identify warfighting function assets required to support the concept of the operations.

(9) Recommend priorities if requirements exceed available assets.

(10) Validate the composition and location of the decisive operation, shaping operation, and reserve forces.

(11) Identify situations, opportunities or additional critical events that require further analysis by staff.

(12) Performing any additional analysis quickly and incorporate the results into the wargame record.

(13) Verify each COA results in a completed synchronization matrix.

i. Identify the following wargame results:

(1) Refine COA with branches and sequels to become on-order or be-prepared missions.

(2) Locations and times of decisive points and critical events.

(3) Identification of key and decisive terrain.

(4) Threat event template and matrix.

(5) Refined task organization.

(6) Tasks unit retains and tasks assigned to subordinate elements.

(7) Assets allocated to subordinate commanders to accomplish mission.

(8) Synchronization matrix.

(9) Decision support template.

(10) Estimation of the duration of entire operation and each critical event.

(11) Projection of percentage of threat force defeated overall and at each critical event.

(12) Likely times and areas for threat use of CBRNE.

(13) Potential times and locations for committing the reserve.

(14) Most dangerous threat COA.

(15) Location of commander, CP, and MC system nodes.

(16) Warfighting function support requirements.

(17) Military deception requirements.

(18) Graphic control measures and updated operational graphics.

(19) Refined CCIR and IR - including latest time information of value and their incorporation into the Information Collection and information management plan.

(20) Information Collection plan and graphics.

(21) Information and influence activities.

(22) Cyber electromagnetic activities.

(23) Fire support, engineer, air and missile defense, IE, and sustainment plans and graphic control measures.

(24) Effects of friendly and threat actions on civilian population and infrastructure, and how these will affect military operations.

(25) Timing for concentration of forces and starting attack or counterattack (if applicable).

(26) Movement times and tables for critical assets, including MC system nodes.

(27) Strengths and weaknesses of each COA.

(28) Targeting data: High-Payoff Targets and attack guidance.

(29) Risk assessment, hazards and controls.

j. Conduct a wargame brief to the commander (OPTIONAL):

(1) Higher headquarters mission, commander's intent, and military deception plan.

(2) Updated IPB.

(3) Friendly and threat COA that were wargamed:

  (a) Critical events.

(b) Possible threat actions and reactions.

(c) Modifications to the COA.

(d) Strengths and weaknesses.

(e) Results of the wargame.

(4) Assumptions.

(5) Wargaming technique used.

5. The staff officer participates in COA comparison, (Step 5 of MDMP):

a. Determine the comparison technique that facilitates reaching the best recommendation and decision.

b. Determine the weight of each criterion, developed before the wargame, based on its relative importance and the commander's guidance.

c. Compare COA individually, by warfighting function.

d. Identify staff responsible for warfighting function; score each COA using the established criteria.

e. Multiply their score by weights to determine the criterion value.

f. Total all values, by category, to determine best COA.

g. Compare feasible COA to identify the one with the highest probability of success against most likely threat COA and most dangerous threat COA.

h. Develop a recommendation for the COA that best accomplishes the mission:

(1) Posing the minimum risk to the unit and mission accomplishment.

(2) Place the unit in the best posture for future operations.

(3) Provide the maximum latitude for initiative by subordinates.

(4) Provide the most flexibility to meet unexpected threats and opportunities.

6. The staff officer assists the operations section in seeking COA approval from the commander, (Step 6 of MDMP):

a. Conduct a COA decision briefing:

(1) The intent of the higher and next higher commander.

(2) The status of the unit and its components.

(3) Current IPB.

(4) The COA considered:

(a) Assumptions used.

(b) Results of staff running estimates.

(c) Summary of wargame for each COA to include critical events, modifications to any COA, and wargame results.

(d) Advantages and disadvantages (including risk) of each COA. (Discussed in terms of numerical or subjective analysis through a decision matrix).

(5) The recommended COA.

b. Obtain the commander's decision on a COA.

c. Receive the commander's final planning guidance:

(1) Refine commander's intent (if necessary).

(2) New CCIR to support execution.

(3) Additional guidance on priorities for warfighting function activities, orders preparation, rehearsals, and preparation.

(4) Priorities for resources needed to preserve freedom of action and assure continuous sustainment.

(5) The risk that the commander is willing to accept.

d. The staff officer assists in writing the WARNO to subordinate headquarters:

(1) Mission.

(2) Commander's intent.

(3) Updated CCIR and EEFI.

(4) Concept of operations.

(5) AO.

(6) Principal tasks assigned to subordinate units.

(7) Preparation and rehearsal instructions not included in TACSOP.

(8) Final timeline for the operations.

7. The staff officer in conjunction with the plans section produces the plan or order, (Step 7 of MDMP):

a. Convert the selected COA into a clear, concise concept of operations and supporting information by writing a complete five-paragraph field order with supporting annex's and operational graphics.

b. Submit the plan or order to the commander for review and approval, prior to reproduction and dissemination.

c. Brief the plan or order to subordinate commanders.

d. Conduct confirmation briefings with subordinates immediately after orders brief.

e. Review subordinate commander's plans or orders, upon their completion.

(Asterisks indicates a leader performance step.)

Evaluation Preparation: Score the Soldier: GO if all performance measures are passed. Score the Soldier NO-GO if Soldier fails any performance measure. If the Soldier scores NO-GO, show the Soldier what was done wrong and how to do it correctly.

PERFORMANCE MEASURES	GO	NO-GO	N/A
1. Received the mission.			
2. Conducted mission analysis.			
3. Developed courses of action.			
4. Analyzed courses of action.			
5. Compared courses of action.			
6. Conducted actions for course of action approval.			
7. Produced orders.

Environment: Environmental protection is not just the law but the right thing to do. It is a continual process and starts with deliberate planning. Always be alert to ways to protect our environment during training and missions. In doing so, you will contribute to the sustainment of our training resources while protecting people and the environment from harmful effects. Refer to FM 3-34.5 Environmental Considerations and GTA 05-08-002 ENVIRONMENTAL-RELATED RISK ASSESSMENT.

Safety: In a training environment, leaders must perform a risk assessment in accordance with FM 5-19, Composite Risk Management. Leaders will complete a DA Form 7566 COMPOSITE RISK MANAGEMENT WORKSHEET during the planning and completion of each task and sub-task by assessing mission, enemy, terrain and weather, troops and support available-time available and civil considerations, (METT-TC). Note: During MOPP training, leaders must ensure personnel are monitored for potential heat injury. Local policies and procedures must be followed during times of increased heat category in order to avoid heat related injury. Consider the MOPP work/rest cycles and water replacement guidelines IAW FM 3-11.4, NBC Protection, FM 3-11.5, CBRN Decontamination.
